Re: Food Tasting at Train Station

This memo will serve as a follow up to your email regarding the Food Tasting that is proposed for June 25, 2003 at the Train Station in Acton, MA. The Department has been in contact with the agency that is organizing the event and I have had several conversations with Sarah Plamondon regarding proper food storage and safe food preparation while on site. The Department has received the application for the Temporary Food Service Permit and accompanying paperwork regarding the event. I will conduct an inspection at the train station on June 25, 2003 to ensure compliance with the Food Code.

At this time, the Department has no additional concerns.

I have been in touch with the parties involved and will follow up before the end of the week. Sheryl had already sent them an application, however, I have had a conversation with the person regarding the extent of their food service and any concerns we have with respect to cleanliness and proper food prep on site.

At this point I don't see a problem, and will plan on making a site inspection on the date of the event.
